

HEAT TRAY ASSEMBLY INSTRUCTIONS

EggVault • Cold-Weather Accessory

HARDWARE INCLUDED

-  **1** Screw — 1/4-20 × 1/2" • Pan head, Phillips
-  **2** Lock Washer — 1/4" • Split
-  **3** Nut — 1/4-20 • Hex

TOOLS REQUIRED

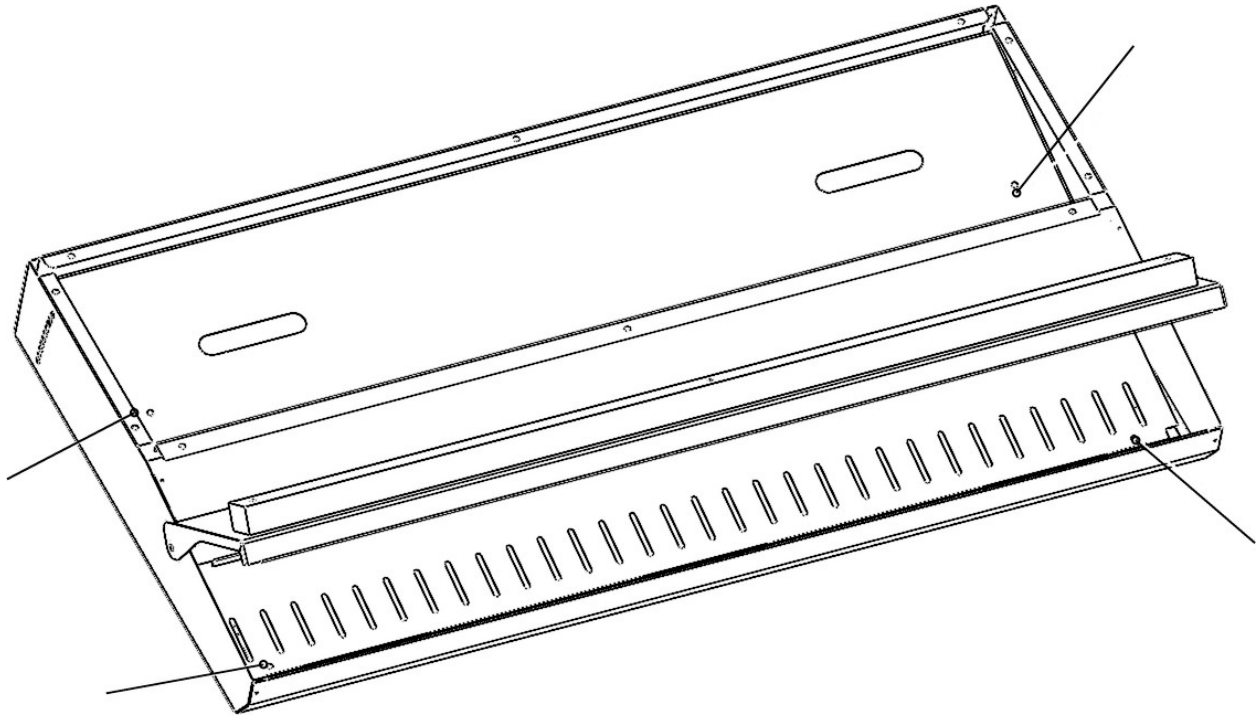

Not included.

- **Work gloves**
- Phillips head screwdriver
- 7/16" wrench or socket

Gloves required Sharp edges. Wear cut-resistant gloves. Never leave a heat source unattended.

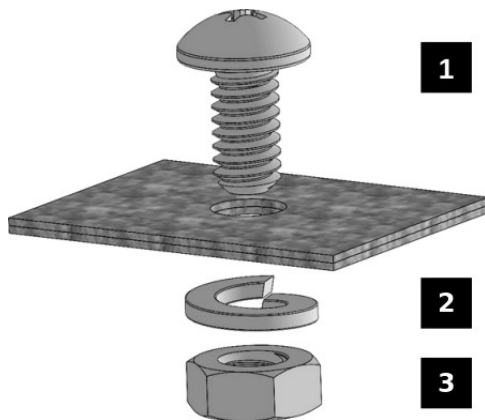

Installation

Attach the heat tray to the underside of the Adjustable Base at the four mounting points shown, using the hardware provided.

Place your heat source inside the tray cavity to protect the eggs from freezing temperatures.

Hardware Installation

1

Assemble each joint in this order, top to bottom:

Screw (1) · Lock Washer (2) · Nut (3)

2

3

Gloves required Sharp edges. Wear cut-resistant gloves. Never leave a heat source unattended.
